

# Activity Sheet: Fill in the Blanks

## What is a Forest?

Instruction: Complete the description of a forest by filling the blanks with the words in the box on the right.

A forest is a \_\_\_\_\_ of trees, \_\_\_\_\_, herbs, other plants and animal \_\_\_\_\_ that all \_\_\_\_\_ on each other. A forest covers a large \_\_\_\_\_, and uses oxygen, water, and nutrients from the soil to \_\_\_\_\_ and \_\_\_\_\_. There are four main layers in the forest, namely, upper storey or \_\_\_\_\_ \_\_\_\_\_, middle \_\_\_\_\_, \_\_\_\_\_ storey, and the \_\_\_\_\_. Each layer consists of a variety of \_\_\_\_\_ and animals that make up the \_\_\_\_\_ of the forest. The forest is very important to the survival of all \_\_\_\_\_. The forest provides \_\_\_\_\_ and \_\_\_\_\_ carbon dioxide. It also keeps the environment cool and makes our surroundings beautiful. We must \_\_\_\_\_ it.
